PAVING THE WAY SALE

Bull Sale
ANGUS & HEREFORD

Welcome to our 2024 bull sale. Hope you have a prosperous new year. Calving is really off to a fast start, we will be through a majority by sale time. We worked hard to bring this set of practical, honest bulls that will raise calves as good as any. We hope you will stop by for a visit, check these boys out and see a cow or two if you like.

We spend many hours researching information and collecting data to create this set of bulls. The time we have spent utilizing all the tools available in the beef industry, will give you greater accuracy in their progeny. The combination of EPD's, DNA and phenotype we are offering, will improve your herd at a friendly price. We have been artificially inseminating every female for nearly 30 years. Good reliable genetics!

And yes, we will brag! We now have the cutest grandson, Carter, born in April to Abby and Andrew Heine.

Steve and Lori Repenning
Blacktop Farms

Honored to receive
the SD Hereford
Association 2023
Seedstock Producer
of the Year

Chris Effling605-769-0142

DIRECTIONS

Blacktop Farms is located at **41366 258th Street, Mitchell, SD.**
Directions from Mitchell, SD are 3 1/2 miles south of I-90 on Highway 37,
3 1/2 miles east on 258th Street

PLEASE NOTE

All persons who attend the sale do so at their own risk. Owners assume no liability, legal or otherwise, for accidents or loss of property that may occur.

GUARANTEE AND HEALTH

All bulls will pass a semen test and will be guaranteed breeding sound for the first breeding season. Animal becomes buyers risk day of sale. We strongly encourage you to purchase mortality insurance. Blacktop Farms is not liable for the death of an animal. Insurance will be available sale day. We do not cover death loss or leg fractures. If breeding troubles are reported by September 1, 2023, the bull may then be returned to breeder in good condition. A replacement bull or credit on next year's sale will be offered.

- Bulls will be freeze branded and vaccinated with Bovishield 5 VL5, Clostridium, Pinkeye and Footrot.
- All bulls tested BVD negative.

DELIVERY AND POSSESSION

Free delivery up to 200 miles. Bulls will be grouped together for full loads. Delivery will start early March. Bulls kept beyond arranged delivery date will have a \$3 per day boarding fee.
Blacktop Farms will keep 1/3 revenue sharing interest in all bulls.
Buyer has 100% possession.

NEED HELP?

Do you hate buying bulls? Don't have internet? **We can help!**
We can line you up a personal shopper or assist you in picking and/or buying your selections. The ringmen are also good sources of information. Let us know what you are needing. We are always glad to help.

ABOVE AVERAGE GOALS REQUIRE TARGETED BULLS

Aim High

The Targeting the Brand™ logo highlights registered Angus bulls with greater genetic potential to produce calves that meet the most challenging specifications of the Certified Angus Beef® brand.

Only 1 in 4 non-parent Angus bulls qualify.

Minimum Genetic Requirements

Marbling EPD (Marb)	+0.65
Dollar Grid Carcass Index (\$G)	+55.0

For more information on Targeting the Brand™ visit CABcattle.com.

Maternal and growth leader.

TO HELP YOU IN YOUR SELECTION WE HAVE ADDED THE FOLLOWING EPDS:

RADG

Residual Average Daily Gain (RADG), feed efficiency expressed in pounds per day, is a predictor of a sire's genetic ability for postweaning gain in future progeny compared to that of other sires, given a constant amount of feed consumed.

DOC

Docility (DOC), is expressed as a difference in yearling cattle temperament, with a higher value indicating more favorable docility in a sire's offspring compared to another sire.

CLAW

Claw Set (Claw), is expressed in units of claw-set score. A lower EPD is more favorable, indicating a sire will produce progeny with more ideal claw set, which is toes that are symmetrical, even and appropriately spaced.

FOOT SCORE

ANGLE

Foot Angle (Angle), is expressed in units of foot-angle score. A lower EPD is more favorable, indicating a sire will produce progeny with more ideal foot angle, which is a 45-degree angle at the pastern joint with appropriate toe length and heel depth.
