Tim Johnson

Kim, Austin and Wyatt Olson

Welcome to our 40th annual sale. Ralph and Helen purchased their first Red Angus female in 1961. They began selling bulls through private treaty and at the local auction market in Timber Lake for many years prior before they had their first official cataloged sale forty years ago.

We have enjoyed producing Registered Red Angus all our lives and have met many producers and have made some lifelong friends. We are very proud of that fact that our genetics have played a role in commercial programs that are recognized for top selling replacement quality females and steers that push the scales to the limit. Your success is what drives us to select and produce cattle that are exceeding industry average.

The Red Angus breed just keeps growing in popularity and doesn't show any indication of slowing any time soon. Heifers are out selling their steer mates and more and more breed associations are using red females for their crossbreeding selections. With the advancement of technology there are numerous tools to help with herd bull selection. Feel free to visit us anytime and we can use our decades of experience to answer questions that will assist you in fine tuning your herd.

Our philosophy hasn't changed about raising cattle. "Staying consistent" and selecting for a balanced set of traits. We simply focus on females that are feminine, highly maternal, with outstanding feet and leg structure, with level udders. We strive to have these qualities along with cattle that are deep sided, long bodied and plenty of muscle wrapped up in a quiet and easy to handle package.

The bulls and replacement heifers were weaned in mid-September and the bulls will be carcass ultrasounded in late February. A supplement sheet will be available on our website (www.pedersonbhr.com) and our Facebook Page (Broken Heart Ranch). Videos will also be available on our website and Facebook page.

Oahe Vet will be our sale day vet and we plan on having the commercial heifers palpated and the bulls evaluated by them also. We will not have them semen tested due to their young age but we do stand behind them when that time arrives prior to breeding. We always stand behind our cattle except during the heart of lush green grass season while wearing church clothes.

We would like to thank our hired man, Tim Johnson for his help through the past years. Tim is a valuable asset to our operation and we couldn't get everything done without him. Nathan Swift has also been part of our crew part time throughout the year. Logan Pederson (Gary and Sue's grandson) has also helped us out during the summer months and he too is an asset in tackling the summer workload.

*The Pederson Broken Heart Ranch crew
Gary and Sue, Chad, Lisa and Bricelyn*

Sale Information

DELIVERY:

It is our policy to assist in delivery to your ranch or to central locations on major highways within 300 miles. Bulls or bred heifers picked up within three or four days will receive a \$50 hauling refund. We will keep the bulls until April 1 at no charge but we will not be responsible for sickness or injury. However, we will keep you informed if anything turns up. We would like to start delivering bulls as soon as weather permits. We're giving a 5% discount on 5 or more bulls to the same ranch and a 10% discount for 10 bulls to the same ranch.

HEALTH:

All cattle are on a complete vaccination program and are BQA Certified. The open heifers have been Bangs vaccinated and will have had two shots of Fusaguard. Oahe Veterinary Clinic, (605) 845-3634, is our primary veterinarian and will also be available on sale day. None of the cattle have had creep feed.

COMMERCIAL HEIFERS:

The commercial heifers have been sorted into three groups and will sell in groups of 10 head with the option to take as many as the buyer would like. There is no delivery on the commercial heifers, but we will assist in coordinating trucking as much as possible.

INSPECTION OF CATTLE:

Cattle will be available for inspection at any time prior to the sale.

BREEDING GUARANTEE:

We guarantee all bulls to be breeders although we recommend you have the bull's semen tested a couple of weeks before turn out time. If after two tests a bull is found to be a non-breeder, we will replace the bull or allow credit toward next year's sale. This guarantee is void if there is evidence of improper management in caring for the animal, or the bull's inability to breed is due to sickness or injury which was incurred after being sold. The bull shall be returned by the purchaser or other arrangements made with us. Scrotal measurements and ultra sound data on the bulls will be available on sale day. All bulls are born and raised on this ranch.

LIABILITIES:

All persons who attend the sale do so at their own risk. The owners assume no liability, legal or otherwise, for any accidents which may occur.

SEMEN INTEREST:

Broken Heart Ranch is retaining a 1/3 semen interest in all bulls and selling full possession, full salvage, plus 2/3 semen revenue. This means any semen sold on any of the bulls, Broken Heart will receive 1/3 the selling price per unit. We also reserve the right to collect semen on any of the bulls, for our own use. This semen will be collected at our expense and the buyer's convenience.

DVAuction

Broadcasting Real-Time Auctions

View the Auction Live! Bid Online... you're ringside right at your desk!

Buying online is as easy as 1, 2, 3...

1. Create an account at www.dvauction.com under the "register" tab
2. Apply for bidding approval by clicking on the "details" tab at least 24 hours prior to the auction-a DV representative will notify you once you have been approved
3. Tune in for the sale and make you purchases!

High speed internet is required for successful bidding-be sure to check the lag-time monitor in the top left corner to ensure real-time broadcasts.

Proxy Bidding-if you can't make time to watch the sale, register a proxy bid and let our system represent your bid while you're away. Look for the "proxy bid" tab on the auction listing, and fill in your maximum bids. We'll handle the rest!

Having troubles? During the auction, you can type a message to the operator at any time for assistance. Our full-time support team can also always be reached at (402) 474-5557.

DVA Rep. Justin Dikoff (605) 290-0635 - email: jdikoff@dvauction.com
Please feel free to contact me with questions about the sale or to view the cattle for you.

In Memory

STUB'S CUSTOM WELDING

RONALD "STUB" LEE PEDERSON – 9/26/1948 - 7/19/2017

In Memory of Gene Webb & Larry Harrison

In the past year we said goodbye to a couple of valued customers, Gene Webb of Eagle Butte, South Dakota and Larry Harrison of White River, South Dakota, who supported our program for many years, and became part of our Broken Heart Ranch family.

These two gentlemen were always enjoyable to deal with and certainly had the eye of great cattle producers. We offer our condolences and prayers to their families and to all other families dealing with the loss of a loved one in this past year.

Moonshine 411 was our Lot 2 bull that was offered for choice against the lot one in our 2015 sale. We used him natural and AI. He is a deep bodied bull that is really throwing some powerful calves with some extra length and a straight topline. We will be calving out his first set of daughters this spring and we certainly are counting down the days until they calve.

We purchased Impeccable for his calving ease ability and we certainly are impressed with how he calves but are really pleased with the added performance. The calves are deep, thick and stylish. The consistency and uniformity are unbelievable. Our 2017 sale they were well received and from the reports we have heard after breeding season they certainly did their job well.

We have been after a Detour son for quite some time. He was a moderate bull that was stacked with muscle and substance. We used this bull to pen breed a handful of cows and then turned him out for a cleanup situation and he ended up getting hurt and never healed up. The one single bull calf we have is extremely deep and thick just like he was.

Hard Drive is a larger framed bull that is extremely long bodied with great muscle expression. We purchased him for his length and the fact that his dam was still producing at age 14. Hard Drive calves are definitely long bodied and wide topped. With the markets paying for pounds, Hard Drive's progeny have that market topping ability.

BHR Drifter 495 744 has always been one of my favorites. He is a long bodied, quiet bull with a level topline. There is a lot of proven performance bloodlines on both sides of his pedigree. His weaning and yearling ratios are 108 and 113. His dam has a respectable MPPA of 104 and goes back to New Chapter, one of our favorite female makers we have owned.

Lot 2

Lot 2 is a Rolling Deep grandson that has really done well for us. His sire is a wide based bull that is clean fronted and very stylish with weaning and yearling ratios of 113 and 110. This is a calf that has a ton of potential and has the pedigree to not only improve maternal traits but also to add that extra value of muscle and rib shape to sell a pot load of market topping feeder cattle. His dam has an MPPA of 105 and is the type of cow that will be produce future herd bulls.

Impeccable calves have that added depth of body and extra rib shape that cattle producers are craving. 766 has some explosive numbers that come from both sides of his curve bending pedigree. His weaning and yearling ratios are 115 and 104. His dam is a powerhouse producer with an MPPA of 106. Lots 3 and 4 are 3/4 brothers.

731 is a dark red bull with lots of muscle and depth. He has the style, phenotype and performance numbers to be a great herd bull. We had thought about keeping him because we don't have any New Direction bloodline in our herd but decided to offer him for sale. He certainly will catch your eye on sale day. His weaning and yearling ratios are 114 and 109 while his Dam's MPPA is 107.

BHR Moonshine 411 753 is our number one yearling weight bull with a ratio of 122 and he certainly looks it too. His weaning ratio was 112 which is nothing to sneeze at. He is extremely long with plenty of muscle expression. He will certainly add some pounds to any calf crop. His dam is a beautiful cow that should have been on a halter. She is in the top 1% of the breed for milk and her udder is tight, level and looks like a first calf heifer's rather than an older cow's. She has truly earned her 113 MPPA. He is the total package herd bull.

7150 is a long sided bull with a smooth head and shoulders. He certainly will add some style and performance to any calf crop. DNA has been sent to double check parentage on him. He is a little late for his AI date but too early for the cleanup bull. We are hoping to have it verified by March 7 so please watch for updates as the sale grows closer. Paper work will not change his 116 Weaning ratio or his 112 Yearling ratio at all. His dam sure cranked one out and she has an MPPA of 107.

Sparkly Number 7 is Bricelyn's bull calf. She designed a special ear tag for him with sparkles on it and we can't believe that after all this time some of them have stayed on. The bull himself is a stout made bull that has tremendous depth and thickness. Sparkles weaning and yearling ratios are 106 and 108. His Dam's MPPA is 102. We are really impressed with the Catapult daughters. Sparkly has a great career as a performance bull with some added maternal traits.

- His dam's pedigree is loaded with calving ease

Commercial Open Heifers

101-200

We will have our replacement heifers numbered from 101 through 200 with the high bidder having the option to take a minimum of five or as many of the whole offering as they choose in Lot number sequence.

All the heifers are top cuts from our Registered herd and Commercial herd. We have culled any female that we did not feel would be replacement quality. All of these heifers will sell as commercial. They will be pregnancy tested by Oahe Vet with a breeding soundness exam prior to the sale. The heifers will be weighed prior to the sale and weights will be available. A video of these heifers will be available on our website, www.pedersonbhr.com.

RED RIGHT. NOW.

The Red Angus female is the rancher favorite for replacements that deliver real profitability.

An independent university study compared six years of Superior Livestock Auction data, revealing Red Angus-sired heifers commanded from \$5 to \$9/cwt. more than females of all other breed types.

Learn more about the value of Red Angus-sired replacement females at
redangus.org.

Ranch Tested. Rancher Trusted.
