Keith,

I have some calf weights for you. The calves were born between March 15 and May 10. They did not receive any creep feed, just native grass.

On Oct. 28, 2014 I sold one load of steers that averaged 698 lbs.

On Oct. 25, 2015 I sold one load of steers that weighed 687 lbs.

On Oct 6, 2016 I sold one load of steers that averaged 644 lbs. and one load of heifers that averaged 584 lbs.

Most of the heifers are sold later in the spring for replacements. We are very happy with the cross on our black Angus cows. We are very happy with Carmichael bulls.

Thank you,
J.O. McDonald
