

Dvorak Herefords

Bull & Female Sale
Friday, February 2, 2018 - 1:00 CST
at our Ranch, Pickstown, SD

Selling: 92 Head - Horned & Polled

42 Coming Two-Year-Old Bulls
50 Heifer Calves

Dvorak Herefords

Welcome to our 2018 Bull & Female Sale

All sale animals are being fed at the farm North of Marty, and will be moved to the sale site at the ranch northeast of Pickstown, Thursday afternoon, the 1st. The cattle will be penned and available for viewing sale day.

The entire sale offering will be sold via video in our remodeled, heated barn.

Bull Development

The two-year-old bulls were fed as calves in our backgrounding yard alongside their steermates until grass time in the spring of 2017. The two-year-olds were brought off grass around Labor Day time, and all sale bulls have been fed a 43neg balanced grower ration consisting of oatlage, corn silage, cracked corn, ground hay, and alfalfa.

Videos of the bulls and heifers can be seen on our website, www.dvorakherefords.com, or through links at [Hereford America.com](http://HerefordAmerica.com), American Hereford Association marketplace link, or through DVAuction.

Sale day phone:

Dvorak Herefords **Bull & Female Sale**

Friday, February 2, 2018

Complimentary Lunch 12 pm, Sale Time 1 pm CST

Located at our ranch, Pickstown, SD, watch for the sign
from the Jct's of US 281 & 18, and SD Hwy 46
at Pickstown -1/4 mile east, 1/4 mile north

Sale terms & Conditions - All cattle selling will be sold to the highest bidder. Any disputes will be settled by the auctioneer at the time of sale, and his decision will be final. All announcements made immediately before an animal is sold takes precedence over information printed in this catalog. All cattle are to be paid for by the purchaser immediately following the sale, unless prior arrangements have been made with either Jeff or Boyd Dvorak.

Absentee bidding - If you would not be able to attend the sale, and would like to place a bid on any of the sale lots, we would gladly assist you, by either leaving a bid with Dvorak Herefords, or other sale staff. If you wish to be on the phone for the bidding, we will try to line up someone to be on the phone with you for the lots in which you are interested. Bidding can also be done through DV Auction. Be sure to get pre sale bidder approval.

Liability - All animals and merchandise sold will be at the buyer's risk as soon as sale is complete. Neither the owner's, auctioneers, or any other personnel will be responsible for an injury or loss that may occur during the sale or on the premises.

Guarantee - All animals sold by Dvorak Herefords will be guaranteed breeders, and all bulls have passed a semen evaluation. If an animal fails to be a breeder, buyers can choose a replacement, if one is available at the time, or receive credit. Dvorak Herefords will not warranty a bull for death, but offers to pay one half of a six month term of mortality insurance. Any animal left in care of Dvorak Herefords must be insured. Guarantee is void if improper management in caring for an animal, or sickness, or injury occurred after taking possession of said animal.

Health - All bulls selling have passed a breeding soundness exam from Northwest Vet Clinic at Wagner, SD, including a semen evaluation. All animals sold by Dvorak Herefords will have been test clean for BVD PI. They have been on an extensive vaccination protocol since birth, and received their first footrot shot, and breeding shot of Preg Guard Gold 10 mid January 2018. All animals sold in this sale will be sold with health papers for interstate travel.

Delivery/Extended Care - We will deliver within a reasonable distance, and cooperate with buyers on further destinations. No delivery on heifers. We will begin to deliver bulls within a week or two after the sale depending on our schedule. If you choose to leave them in Dvorak Herefords care you may do so for \$5/day charge.

Registrations - All animals selling as registered, will be sold as such, and registration papers will be transferred to the buyers, at the sellers expense. The commercial heifers are out of registered parents, and registration papers will be provided to the buyers at their expense for the cost of \$50/head.

Volume Discounts - Anyone purchasing two or more bulls will receive a \$50/bull discount. Those purchasing four or more bulls, will receive a \$100/bull discount.

Current EPD'S - Back in early December, the American Hereford Association moved to a new software program to calculate EPD's. Everything printed in the catalog is current as of Jan 1, 2018. There may be slight changed by sale day, as the EPD's will now be updated weekly through the new software.

468Z is approaching his sixth birthday, and looks and moves like an NFL defensive tackle. We were first attracted to him for his pedigree and phenotype. As a mature bull, he is appreciated for his length of body, muscle mass, athleticism, and eye appeal in his offspring. Trait leader for Dry Matter Intake, Udder suspension, teat size, and Rib Eye Area.

• Top 5% for Dry Matter Intake, Dam 15Y is Dam of Distinction, and has a nursing ratio of 5@106

DVOR Roudy 468Z W46 Diesel 697

15 DVOR Roudy 468Z W46 Diesel 697
(P43690067) 3/8/16 Act. BW 99 WW 484 YW 986 Polled
WW ratio 94, YW ratio (single), REA ratio 102, IMF ratio 115

This mating is no accident, this is the result of reproducing what works. It is evident if you look below at his full sister and mother. His mother Maggie has made a dramatic impact in the time she has been in the program. From his sisters that have made their own way to the show string and donor, to the brothers that have been features and top sellers the last couple of years. This is the result of linebreeding maternal strengths with the combination of carcass traits. As you can see if you are looking for a bull to produce ideal females, this guy is the complete package. Top 20% of the breed in Dry Matter Intake, Sustained Cow Fertility, Udder Suspension, and Teat Size, are only secondary to moderate, low input, fertile, and highly efficient traits exhibited that we cannot quantify. If the daughter producing possibilities aren't enough the trait leading characteristics of ribeye area with a 102 ratio and marbling of a 115 ratio mean the bull mates won't be too shabby either.

The 859 cow was the first purchase we made from the Triple M Ranch, it is easy to see why we went back. She was an imposing cow that came from a program that believed in cow making a living off grass. That fact is substantiated by raising of 3 calves with a 109 ratio at weaning. So, when we got her to South Dakota it only seemed logical to flush her to the female specialist 468Z. These two bulls are the exact result we were looking for. Dark red polled bulls, that are sound and extremely functional. They put a preference on fertility, maternal traits, and efficiency; with a strong shot of Ribeye as they post a combined Ribeye ratio of 106. We think these bulls will make females that stay around for a long time because they will do what good cows should.

Lots 18, 19 & 20

It is really a shame we didn't get a picture of the 906 cow, cause if we had there would be no doubt where the striking phenotype and power of these three bulls comes from. That should not be a surprise to anyone who studies the bottom side of this pedigree, as you find the immortal two-time national champion cow Delivery Queen and her first

natural daughter Strawberry Wine 780 that was at her side when she won. All that combined with the female makers Online, 755T, and 468Z. 906 was without a doubt the cow we were the most excited about when we purchased the Four Corners cows. This flush of bulls that have been favorites of visitors all summer, just like their brother that sold last year. These bulls will not only be nice to look at, they will be efficient posting a Dry Matter Intake value in the top 15% of the entire breed. Marbling has been a buzz word of late, and for good reason we all like an enjoyable eating experience. These bulls can erase that worry if you feed to the grid, but still want females that will make cows. This mating ranks in the top quarter of the breed on the EPD scale, but more than that they have a combined Marbling ratio of 107.5, I certainly think that dictates a trend.

Now as a coming six year old, 2025 has done a nice job adding some balance between birth weights and growth on his calves. His calves are marked well, with many being goggle eyed. He is a trait leader for six EPD traits.

DVOR Miss Barbara 7201

No, this is not a misprint. This is a very striking registered Angus heifer resulting from Sydney's Angus show projects. Having an Angus on the sale is a first for us, but we felt this heifer deserved to get out in front of folks. She is super sound footed, broody, and has that three dimensional look.

DVOR 109 923 Lady Cat 778E ET 46

When Maesa brought up the idea of flushing her #923 cow to Catapult, we had no idea we would get the powerhouse flush of calves that we would. She wanted to offer up on the heifer on the sale. She will be showing a flushmate, the bull mates will sell next year. This one gets better and better.

DVOR 468Z 1225

Lady Vic 7178ET

An ET heifer with that look of a future brood cow. She has the mass, bone, and power. Conservatively marked. JaCee showed a full sister. Dam 1225's natural calf will sell in next year's bull sale. Full Sister sells as Lot 65.

We are overstocked!

We will be holding a mature cow dispersion this fall.

Be watching for details as we get closer. There will be multiple donors, Dams of Distinctions, as well as some of the most productive cows to walk our pastures selling.

- Custom Semen Collection
- Advanced Laboratory Equipment
- CSS Approved Facility
- Semen Collection
- Domestic and International
- Completely Remodeled Facilities
- Online Inventory tracking
- Custom Shipping available
- AI Supplies/Liquid Nitrogen

We are offering FREE storage until June 1, 2018

This is a great opportunity to bring your inventory closer to home. Give the office a call and we will help you make arrangements to get your semen transferred.
