Our breeding philosophy is to focus on the female. Our cows are expected to perform: calve and mother without assistance, breed back in a timely manner and wean a good calf. The registered cattle are managed the same as the commercial cows. We don't single trait select, nor do we select for extremes. We select for traits that will compliment one another, while continuously working at keeping our genetics problem free. When offering bulls for sale, our goal is to provide bulls that are sound, functional, balanced, working class bulls; able to perform in most environments. Our herd has tested negatively for BVD PI. The testing is done annually to insure we retain our negative status.

E 7W Tailor Z648

Reg. #43303347 Birth: 1/25/2012
Sire: HARVIE TAILOR MADE ET 7W
Dam: E 27 RIBSTONE LADY S64

High performance bull with very good pigment Z648 will add lbs. The cow family behind this bull has been very productive. Z648 weaned at 729 lbs. BW 100 lbs, polled.
