Welcome to the Ponca Valley

This year marks the 75th year that Fishers have been in the Ponca Valley and the 75th year we have owned Registered Herefords. It has been and continues to be a great run.

We kept a group of 28 bulls that are now coming two-year-olds in order to have for this, our first real bull and female sale at the ranch. Our herd has grown in both size and quality in recent years.

Three years ago our son Steven and two nephews, Mark Fisher and Rod Fisher formed a partnership with Carol and I so we could continue on growing and improving our herd. We were fortunate to have Nathan Gillaspie, a cousin come with his family to be a permanent part of our operation. We have great cattle working support from Byron Garwood and his family. Leon Haddox from Oklahoma is also a great help and we tell people that he is our Cowboy consultant.

It has always been our belief that the most important trait in beef cattle is the ability to produce and reproduce on available feed. Sound structure, good feet and legs are traits that we have selected for through the years. We are often told by our customers that they are surprised by how long our cattle last. The females are bred to be great cows with many being good enough to show. We want our cattle to look like the Fisher kind. Eye-appeal and soundness can not be numbered.

We continue to produce our cattle in a no creep, no nonsense program where, "What you see, is What you get". It would be a pleasure to show you these cattle any time before the sale and an honor to have you with us on sale day.

• 314 sires beautiful, low birth weight, short marked, pigmented calves that are born extremely easy and then just get up and grow.

• His calves were a feature in Berry's 2015 sale and will dominate the top end of their 2016 sale. A commercial producer that used 100 straws on heifers in 2014 recently purchased 150 straws. The true test!
