Welcome to the Friedt Herefords Production Sale.

We would like to welcome you to our 17th annual production sale on February 14, 2024 at Stockmen's West in Dickinson. We have always taken a balanced approach to breeding cattle, stressing performance and carcass quality while keeping structural soundness and calving ease a top priority.

The yearling bulls we are selling have been through one of the toughest springs we have had. Excessive cold and plenty of snow proved to be a challenge for both man and beast.

We have a number of outstanding ET calves by our SR Bakkette 553C donor cow. She has been a consistent donor for us with sale toppers selling to Knippling Herefords and Melcher Herefords. Her daughters are following in her footsteps.

Two other ET calves out of Megan and Dusty's Navarro bred cow are really good.

We have added some new sires to our herd bull battery that mated well with our cowherd.

Take note of the F1 BWF yearling heifers, bred Hereford heifers, plus some Angus heifers that are bred Hereford.

Please call if you have any questions. And feel free to call the consignors about their cattle. We look forward to seeing you on sale day.

Videos are now available for viewing on our website. Supplement sheet with final weights and ultrasound data will be available on sale day and on our website prior to the sale.

Catalog by HEREFORD AMERICA

NATIONAL CATTLE EVALUATION TERMS

EPD — EXPECTED PROGENY DIFFERENCE:

Estimate of a bull or cow's future progeny performance compared to progeny of a breed average sire or dam. EPDs are expressed in actual pounds, plus or minus, for birth, weaning and yearling weights and maternal performance.

CED — Calving Ease Direct

BW — Birth Weight

WW — Weaning Weight

YW — Yearling Weight

MILK

M&G — Milk & Growth

CEM — Calving Ease Maternal

FAT — Rib Fat

REA — Ribeye Area

Marb (IMF) — Marbling

CHBS\$ — Certified Hereford Beef Index

SCROTAL EVALUATION

Age in Months	12-14	15-20	21-30	30 plus
Acceptable Range (cm)	30-35	31-37	32-39	33-40

SC — SCROTAL CIRCUMFERENCE:

A measure of fertility. Testicle size indicated by scrotal circumference measured in centimeters is a highly heritable trait very much correlated to reproductive efficiency. A valuable indicator of bull fertility and puberty, and highly related to early puberty in heifers and cow fertility, increased bull scrotal circumference should improve fertility and inherent cow herd productivity.

2022 HEREFORD BREED EPD AVERAGE

CED	BW	WW	YW	M	M&G	CEM	FAT	REA	MARB	CHBS\$
+3.3	2.7	55	89	26	54	2.0	0.019	0.43	0.13	117

TERMS & CONDITIONS

All cattle will be sold to the highest bidder without reserve. The terms of the sale will be cash. The auctioneer will settle any dispute as to bids.

Each animal will become the property of the buyer as soon as sold. Cattle will be cared for a reasonable length of time after the sale, at the buyer's risk.

All bulls of breeding age are guaranteed breeders. If an animal fails to breed after a trial of six months, it may be returned to the seller at buyer's expense. The seller reserves the right to try said animal for six months and if it proves a breeder to return it to the station of buyer at seller's expense. If the animal proves to be a non-breeder an equal animal substituted or credit on the purchase of another animal. No adjustments after 9 months.

Herd Health is excellent. Our herd veterinarian is Dr. Travis Kuhlka, DVM 701-400-2953.

Extreme care has been taken in copying each pedigree to avoid errors. We are not to be held responsible for any error which might appear and which is beyond our control in the printing of the catalog.

Everyone attending this sale does so at his own responsibility and risk, and without liability on the part of the owner or his employees.

Delivery: \$100 off sale price if picked up on sale day (bulls only). Free delivery within 300 miles. We will cooperate on all deliveries regardless of number of head or distance.

Volume Buyer Discount:

1.5% on 3 bulls, 2.5% on 4 bulls, 3.5% on 5 or more bulls.

Heifers: The registered heifers will be sold individually. The Friedt commercial Hereford heifers high bidder will have the option to take all or gate cut 5 or more.

Feeding arrangements: Will feed bull calves for free until April 1st.

Incidents resulting in injury or death of a bull prior to delivery will not be the responsibility of Friedt Herefords. This is an insurable risk with coverage offered at the time of the sale. Animals are being cared for by seller are done so at the purchaser's risk. Insurance representatives Art Handel and Troy Bargmann will be on hand to provide insurance.

4.5	53	91	31	58	.77	.34	146

928 was sold to Andrew Koehn in our 2020 production sale. We used him AI within our herd and donor cows, including our SR Bakkette 553C donor cow. 928 has 3 ET sons in the sale and 6 ET daughters we will be keeping as replacement heifers. They have been standouts since birth. These calves are dark red and short marked. They are heavy muscled, deep ribbed, and eye catching from the side profile. There is longevity behind him, as his 11-year-old dam weaned off a heifer calf this past fall who has made the keep list.

908 was sold to Milt Madison in our 2020 production sale. We used him AI on our heifers during the 2022 breeding season. He also sired ET calves. 908 boasts 10 traits in the 25th percentile or higher. His calves are wide based and expressively muscled down their tops. They are square hiped and tie in deep at the base of their quarter. 908's sons weighed up well at weaning and continue to excel in the sale pen.

1245 was purchased from the 2022 Harrell Ranch production sale. He is long as a freight train and very striking from the side profile. 1245 is wide topped, square hiped, and wide based. To add to the package he is long striding, sure footed, and can cover a lot of pasture. His calves pack on a lot of muscle to a touch more moderate frame.

765 is an FH Navarro 242 MD son who sold to Terry Friedt in our 2018 production sale. We purchased him back and used him heavily during the 2022 breeding season. He boasts 8 traits in the 25th percentile. His calves are long bodied, heavy muscled, and short marked. The bulls sired by him are easy to spot. He has several daughters we will be keeping as replacements.

1060, purchased from Stuber Ranch in 2021, continues to be a standout herd sire and proven heifer bull. We have used him with great success on our heifers. He has also done an outstanding job when mated to mature cows. His calves come easy and grow quick. His bull calves were top picks in our 2023 production sale. His first daughters will calve this year.

Full brother to the 315 bull calf. If you're looking for consistency, tie into one of these two bulls. The 928 bull was a high seller to Koehn Herefords in 2020 and he has working really well here.

SR BAKKETTE 553C - 43613447

553C has been an outstanding donor cow for us. She produced the high selling bull in our 2020 production sale selling to Knippling Herefords. She has a great EPD package with 14 traits above the 30th percentile and 8 above the 10th percentile. She is red eyed and red to the ground, with a very functional udder.

 What a calf here. He was special when he was born and hasn't quit yet. Marked right, long sided and thick. His dam is one of our longest cows and is a heavy milker.

2-YEAR-OLD BULLS

We are offering a good selection of virgin 2-year-old bulls that were summered on pasture. They are sound on their feet, correct in their structure and not overfed. We use a late February/early March cutoff date for a bull calf to be sold as a yearling.

Consigned by Aaron Friedt.....701-590-9597 and Doug Schmit.....701-742-3567

WHOA.

MORE POUNDS. MORE CALVES. MORE PROFIT.

Herefords are known as the efficiency experts for a reason.

Herefords boost pregnancy rates by 7% and add \$30 per head in feedyard profitability in a crossbreeding system.

And Hereford genetics bring unrivaled hybrid vigor, longevity and disposition.

COME HOME TO HEREFORD.
