ELITE FEMALE SALE

SEPTEMBER 17, 2015

1 P.M. (MST) • AT THE RANCH

Welcome Letter

We would like to invite you to attend our "Miss Advance Female Pageant 2015" sale. It has long been a part of our program to offer our best, most proven cows to the industry at auction and continue on forward with the younger generation of females. This is a fantastic opportunity to dip into the heart of our cow herd and buy females that are capable of taking any breeding program to the next level. We will be selling every wholly owned female on the ranch that was born in 2009 and 2010. Over one-third of these females have been donors for our program and have produced many top herd bulls and females for our program and other elite Hereford operations around the U.S. In addition, we will be selling all of our March and April calving 2-, 3-and 4-year-old cows along with an tremendous group of March calving bred heifers. We are also selling 25 fall born open yearling heifers out of the heart of our fall heifer crop. This group represents 50% of the heifers born in the fall of 2014 and many are ET heifers out of top cows, including a daughter of the great 5139R donor cow.

This is our largest group of females we have ever offered at auction and it is also our deepest group in quality. These females combine years of selection for performance and EPDs along with phenotype, structure, udder quality, pigment and fleshing ability. All of the donor cows along with the bred heifers and open fall heifers have GE EPD profiles on them to increase their accuracy. Every animal in the sale has been DNA parentage verified and is tested free of all know genetic defects. We feel there is a great opportunity to find a true foundation female for your operation that can be a true centerpiece of your genetics going forward. Our females have proven themselves in the past of producing in the pasture or progeny that can excel in the showing. We know they will work for you and look forward to your success with them.

We are very proud of our cow herd and because of that are very hard on them. Each year we cull for performance, fertility, soundness, fleshing ability, udder quality, milking ability and mothering ability. We expect our cows to produce big, heavy calves at weaning off of grass and keep themselves in good condition while doing it. They are the product of over 60 years of linebreeding for predictability and uniformity, combined with a constant focus on multi-trait selection for performance and practical traits. Every year we keep the top end of our heifer calves based on performance, EPDs and phenotype. These females are our basis to continue moving our program forward.

Our herd represents highly selected Line One Advance Domino breeding. Les Holden purchased his first Line One bull in 1947 and his first Advance Domino bred females in the early 1950s. Since then we have used many top sires from our own herd, Cooper Herefords and the Miles City USDA ARS center where the Line One herd was developed.

The linebreeding program we have used substantiates the superior genetics in our cow herd since continuous linebreeding is only possible with a concentration of above average traits. The advantage of linebreeding is, of course, increased uniformity and predictability as well as the hybrid vigor generated in their progeny by an outcross, either within or between breeds. Our cow herd now averages over 20% inbreeding co-efficient and this serves to enhance the predictability of these positive genetics.

The cattle will be on display from September 15-17. We will have a social hour and dinner here at the ranch on the evening of September 16th beginning at 5 p.m. Lunch will be served on the 16th and on sale day. Please come and be our guests and experience beautiful Montana in late summer. For those unable to attend, the sale will be broadcast with Superior Productions on RuralTV and superior.com and on also on LiveAuctions.TV.

For further information or if we can assist you in any way, please give us a call or drop us an e-mail. Thanks and we look forward to seeing you on September 17th
