Sale Location

Red River Farms Sale Facility

602 FM 1652

Grand Saline, TX 75140

Red River Farms is located on FM 1652, just off Hwy. 17, 10 miles north of I-20

Herd Health

Cattle will sell with proper health certificates for immediate interstate shipment.

Herd veterinarian: Jesse Richardson, Henderson County Veterinary Hospital, 903-675-5613.

Herd nutrition: Livestock Nutrition Center, 817-232-8161.

Sale Terms & Conditions

Cattle sell under the recommended Sale Terms and Conditions of the American Hereford Assn.

Retained Flushes

Iron Lake Ranch will retain the right to two future flushes on all the open heifers selling.

Each flush will include a minimum of six transferable/freezable embryos and will be performed at the convenience of the buyer. Iron Lake Ranch will be responsible for the expense of these flushes.

Trucking

Livestock transportation will be available sale day.

Please let the sale manager know if you will need assistance with delivery.

Livestock Mortality Insurance

Insurance will be available sale day at the clerk's desk.

Expected Progeny Differences (EPDs)

EPDs are updated weekly by the American Hereford Association. The EPDs in the catalog were from the 9/24/18 report. Current EPDs can be viewed online at www.hereford.org.

Announcements made sale day from the auction block will take precedence over statements printed in the sale catalog or other advertising. We reserve the right to withdraw any sale lot not meeting our specifications prior to sale time. All persons who attend the sale do so at their own risk. Neither the owners, the sale manager, Red River Farms nor any other person connected with the sale assumes liability, legal or otherwise, for accidents or loss of property.

We invite you to visit us at Iron Lake Ranch any time!

The sale cattle are available for viewing at the ranch near Athens at your convenience prior to Wednesday, November 7th.

They will then be available for viewing at the Red River Farms Sale Facility near Grand Saline, Texas.

Welcome to Iron Lake Ranch!

From the beginning stages of Iron Lake Ranch, Dimitri Mataragas has strived to offer a product that would be in demand for the specific reason that you could not get it anywhere else. In addition, he has always demanded that Iron Lake's product would be sound, functional, well structured cattle with elite udders. In his quest for excellence, he has assembled one of the most unique sets of donors in the Hereford industry.

Following are the principal donors represented in this year's sale.

DJB 46B Beth 1L

big volume "maternal" look. We are very fortunate to have had the opportunity to add Beth 1L genetics to the Iron Lake Ranch program through the use of IVF technology. Three daughters sell.

Also originating from the Grandview CMR herd are three P606 daughters—26S, X201 and U358—that share all the qualities that P606 is known for, being the ultimate Hereford female sire. All three are moderate framed with huge body and rib, but what you will be the most impressed with are their perfect udders and strong milk flow. Progeny of 26S and X201 are included in our 2018 sale.

CMR Grandview Lass P606 26S ET

Grandview CMR P606 Lass X201

KCF Miss Proficient U201

stock that excel in calving ease, udder quality, carcass weight and REA. To date, she records 56 progeny scanned by ultrasound who have posted an average REA ratio of 105.5. She has several sons and daughters offered in this elite genetic event. U201 is co-owned with Knoll Crest Farms.

H Ms 5139 Advance 4007 ET

one of the feature donors at Iron Lake Ranch. She combines tremendous rib shape, power, design and impeccable maternal strength. Three elite daughters plus a herd bull prospect son sell November 10th.

U201 is the homozygous polled donor dam of the popular performance sire X51, the highly proven surefire heifer bull ILR Peace of Mind 394A ET who sells in this offering as Lot 40, and the all-around performance sire ILR Red Power. U201 has an impeccable record of producing high end seed

4007 was the high selling female in the 2014 Hoffman Ranch Female Sale, commanding \$180,000. She is sired by the ever-popular Ribeye 88X and out of the famed 5139R donor for Sierra Ranches, who herself commanded \$175,000 and to date has produced in excess of \$2,000,000 in progeny sales. 4007 has become

IRON Lake Ranch

CSF BR Gabrielle 8129 ET – Dam of champions, including the 2013 NAILE Grand Champion Female and the 2017 Western Nugget Grand Champion Horned Female. Gabrielle 8129 is a flush mate sister to 8130, the dam of BR Anastasia and BR Aventus; and to 8052, dam of the \$230,000-valued BR

CSF 18U Olivia 2102 Daughter of Gabrielle 8129

Belle 4082 ET and maternal granddam of the \$600,000-valued BR Belle Air 6011. Elite phenotype coupled with an impeccable pedigree. Several direct daughters sell in the Iron Clad Genetics V offering.

We are proud to be partners with Burns Farms, Pikeville, TN, on this one-of-a-kind donor.

DCC 8006 Patti 4266 ET

HYFA featured Denver Lot 1. Patti's progeny always have the look and size that get them noticed. At 14 years of age, she is still an impressive female with huge body and rib.

Patti 4266 is a very influential part of Iron Lake Ranch's genetics. She is the mother of 0230X, the 2012 Denver Champion Female that was shown by Haley Hudson, and the Iron Lake Ranch, Stuber Ranch and Churchill donor 1162Y, who produced the \$100,000

3196 was our choice from the 2013 Churchill World Class Female Sale. She fits the mold of the Iron Lake Ranch program by combining pedigree and performance with eye appeal. A Perfect Timing daughter out of a full sister to Redeem, 3196 is one that we think you will agree has an impeccable pedigree. When you see her in person, you will be impressed by the balance and style she possesses, blended with depth, muscle and shape. Look for 3196 to be a key to our future. A daughter sells as Lot 15. Owned with Churchill Cattle Co.

Churchill Lady 3196A ET

Boyd E70 Queen 0118

maternal traits that Iron Lake Ranch strives for. In 2016, a Miles McKee son of 0118 sold in the Denver Sale for \$27,000 for 1/2 interest to Ehlke Herefords, Townsend, MT, and Lucky U Ranch, Misoula, MT. Six Mile Creek Ranch, Yukon, OK, has purchased 1/2 interest in 0118. A daughter sells.

We are very proud to have this addition to our donor battery. **0118** follows our goals perfectly. She is a powerfully built, very structurally correct female that possesses one of the best udders in the breed. She has performance, muscle and pigment. This is the complete package of look, performance, data and

What a way to lead off the 5th Annual Iron Clad Genetics offering with this outstanding maternal sister to the \$150,000 NJW 79Z Z311 Endure 173D ET, who is currently working the pastures for Fawcett's Elm Creek Ranch and Upstream Ranch. Endure semen when offered has at times fetched over \$800 per straw. Endure was the talk of the 2017 bull sale season, as he combines strong phenotype with an incredible EPD profile and is homozygous polled.

Lady Rita is sired by the ever-popular 88X and is one spectacular female in the making. She has tremendous depth and power yet ties it all into a very attractive, smooth made package. We think the earning potential in this individual is quite high, as she combines phenotype and pedigree with a very attractive EPD profile that checks all the boxes. Grab onto this big-time power donor prospect, as it will pay dividends.

Ranks in the top 1% for BII; top 2% for BMI; top 3% for REA; top 4% for Teat; top 5% for CHB; top 10% for Milk, Udder and Marb; top 15% for CW; top 25% for BW.

FALL YEARLING DONOR PROSPECTS

ILR 18U Lady Gabrielle
7111 ET
Lot 2B

What a unique opportunity to acquire full sisters to CSF 18U Olivia 2102, the 2013 North American International Livestock Exposition Grand Champion Hereford Female. Another full sister to Lots 2A and 2B sold for a \$40,000 valuation for Burns Farms in Pikeville, TN. In the Inaugural Iron Clad Genetics Sale, the Lot 1 embryos that sold were maternal sibs to Lots 2A and 2B and sired by Miles McKee, commanding \$3,800 per embryo; those embryos produced the 2017 Grand Champion Horned Female at the Western Nugget in Reno, NV.

Lots 2A and 2B are full sibs-in-blood to BR Belle 4082, the \$230,000-valued Lot 1 female in the Barber Ranch Mature Cow Herd Dispersion held this past May and who is also the dam of BR Belle Air 6011, the \$600,000-valued National Western Stock Show 2017 Supreme Champion Hereford.

Seldom will breeders dig as deep into the herd as Dimitri has to offer genetics of this caliber for your appraisal and especially to be purchased at auction. Rank in the top 1% for WW and YW; top 2% for CW and REA; top 10% for Udder and CHB; top 25% for Milk and BII.

Lots 5A and 5B are the result of a unique mating, combining the powerful and maternal sire Outcross 18U with X328, the full sister to the dam of Encore. We really like this pair of sisters! They excel phenotypically, and their EPD profile is impressive in performance, maternal strength and value-added carcass merit.

Dimitri is always searching to create rare and elite genetics that combine strong phenotype with maternal strength. This pair of sisters fits that bill to a T. Rank in the top 2% for WW and Milk; top 3% for YW and Udder; top 4% for Teat, CW, REA and BII; top 5% for BMI; top 20% for CHB.

The dam of Lots 9A and 9B is the immortal Beth 1L, one of the most influential donors in the Hereford breed over the past decade. Beth 1L is the full sister to P606 and has been a mainstay in the Iron Lake Ranch program for her proven maternal genetics.

These two flush mate sisters are sired by the \$240,000 Hoffman Ranch herd sire HH Advance 4075B, whose semen can only be obtained at auction and fetches well over \$300 per straw when offered by Hoffman Ranch.

A very dynamic pair of sisters that have proven maternal genetics bred into them from both the top and bottom sides of their pedigree. Not only do they carry excellent maternal genetics, they are also easy fleshing with excellent carcass merit and have some of the highest indexes of any of the cattle in the sale. Rare, elite genetic packages that Dimitri strives to produce! Maternal sister sells as Lot 12.

Rank in the top 2% for REA, BMI and CHB; top 3% for BII; top 10% for Udder; top 15% for Teat; top 20% for Marb, top 25% for Milk.

- Selling the right to flush Z44 to the bull of the buyer's choice. Buyer is guaranteed a minimum of six transferable embryos with a guarantee of two pregnancies if put in by a certified embryologist. In the event that more than six embryos are produced, the buyer will receive all the embryos. The buyer is responsible for all costs associated with the flush.

If you have been in search of an ultra-complete, perfect-uddered, goggle-eyed, calving-ease dark red female with a proven track record, well here is KCF Miss 3027 Z44 ET.

Z44 herself dominated her calf crop, posting an IMF ratio of 149 and REA ratio of 118. Her first three bulls offered by Knoll Crest Farms were KCF Bennett Summit B261, sold for \$27,000 to Upstream Ranch and Accelerated Genetics; KCF Bennett Addition B262, sold for \$27,000 to White Hawk Ranch, Barnes Herefords, Innisfail Farms and Still River Ranch; and KCF Bennett Z80 B264, sold for \$10,000 to Waggoner Cattle Company. Z44 currently has 10 sons and daughters working in herds across the U.S.

This is a rare opportunity to acquire a flush out of this highly proven donor that displays calving ease along with maternal strength and value-added carcass merit.

Among active dams, ranks in the top 1% for Udder; top 2% for CED and Teat; top 3% for BW, BMI and BII; top 10% for REA and Marb; top 20% for Milk.

Z44 is open and ready to flush.

8090U has stood the test of time and has been a tremendous asset for the Iron Lake Ranch breeding program. She has produced over \$100,000 in progeny and frozen genetics sold in previous Iron Clad Genetics sales. She has consistently sired progeny that have balance, eye appeal and conservative markings. Her daughters in production have beautiful udders. 8090 is still very youthful in her appearance and has an impeccable EPD profile that excels in calving ease, maternal and carcass merit.

Ranks in the top 10% for CHB; top 15% for CED, REA and Marb; top 20% for BW, CW, BMI and BII; top 25% for Milk.

- 8090 was intentionally left open for the new owner to begin flushing. Purchase price includes the Lot 11A embryos, by Churchill Kickstart, and the Lot 11B embryos, sired by ILR Hometown 332A.

If ever there was a female that is a replica of her dam, it is without question Lady Beth 835. She is built much like her dam, Beth 1L, the full sister to P606, but with more hip and less navel. Sired by the deceased Pyramid, whose progeny dominated the Hoffman Ranch 2017 Bull Sale with multiple high sellers.

Lady Beth provides elite maternal genetics in a very attractive package. Once again, these are elite, hard-to-obtain genetics that Dimitri has assembled for your appraisal.

Ranks in the top 1% for BMI; top 2% for REA and BII; top 4% for Teat; top 10% for CHB; top 20% for Milk.

Maternal sisters sell as Lots 9A and 9B.

- Selling 1/2 interest and no possession.
- Sells open.

810 is a full sister to the popular AH JDH Munson 15E ET, Champion Junior Bull Calf at the 2018 National Western Stock Show.

When you see 810, it is easy to see why her sire, 33Z, has risen to the top of the must-use Hereford AI sires list. His progeny are conservatively marked, have added muscle and are attractive on the profile. He has proven to be an all-around performance sire, checking all the boxes.

Ranks in the top 1% for CHB; top 3% for Udder; top 4% for Teat; top 10% for REA, Marb and BII; top 15% for CED, YW and BMI; top 20% for WW; top 25% for BW.

What a power-packed pedigree here...sired by the ever-popular 2017 NWSS Champion Horned Bull and Supreme Champion Hereford, BR Belle Air 6011, and out of the immortal donor dam Patti 4266. Patti has played a very instrumental role in the Iron Lake Ranch program. She is the dam of the 2012 Denver Champion Female and the resident Iron Lake Ranch donor 1162Y, who is the dam of a \$100,000 former Lot 1 in the Mile High Night Sale in Denver.

Exquisite phenotype in these flush sisters that will show and make tremendous brood cows when in production. Pictured in August, this set of spring-born heifers being offered will be a very impressive group to see come sale day.

Rank in the top 2% for BII; top 3% for REA and CHB; top 15% for CW; top 20% for Marb; top 25% for BMI.

Lady Belle 834 is a direct daughter of the \$180,000 4007, who is a direct daughter of the \$175,000 5139R donor that resides at Sierra Ranches in California. A full sister to 4007 recently commanded \$47,000 for 1/2 interest to Whispering Pine Farms in the 2018 Hoffman Ranch Female Sale.

If you want big-time cow power backed by a big-time donor female who has herself rewritten record books when it comes to monetary value, this direct daughter of the \$600,000 Belle Air would be a great place to start.

Ranks in the top 10% for Milk and REA; top 25% for BW, WW and YW.

Maternal sisters sell as Lots 23 and 30. Maternal brother sells as Lot 44.

Lots 17A and 17B are sired by the \$240,000 4075 and out of the 1162Y donor dam of a \$100,000 former Lot 1 at the Mile High Night Sale in Denver. Powerfully designed females with added bone, hip and power that tie it all together in a very eye-appealing, attractive package. The genetics are stacked deep and will be ready for your appraisal on November 10.

This powerfully designed female has become a tremendous donor for Iron Lake Ranch. She is dark cherry red in color, long necked, square hipped and super correct in her lines. Her dam is the immortal 440L, who has been a very instrumental breeding piece in the Iron Lake operation.

Tremendous EPD profile that checks all the boxes. It is hard to find females that have the performance, maternal strength and carcass merit this young donor possesses and homozygous polled to boot.

Ranks in the top 1% for CW, REA and CHB; top 2% for Milk; top 3% for YW and BII; top 4% for WW, Teat, Marb and BMI; top 10% for Udder.

Due to calve spring 2019 and will then be available to flush.

- *Selling the right to flush 357A to the bull of the buyer's choice. Buyer is guaranteed a minimum of six transferable embryos with a guarantee of two pregnancies if put in by a certified embryologist. Buyer will receive all embryos produced in the flush and is responsible for all costs associated with the flush.*

Seldom does a calving-ease herd bull of this caliber come up for sale, and certainly not at auction. Peace of Mind is sired by the highly proven calving-ease sire Sensation 028X and out of the immortal U201 donor dam that brought the breed the all-around performance sire X51.

A big-time proven calving-ease sire with currently 204 progeny posting an average BW ratio of 97.1. His 25 progeny scanned by ultrasound post an average ratio of 102.3 for REA.

Iron Lake Ranch and Langford Herefords are truly offering a special bull in his prime with plenty of ability to produce revenue through semen sales. Once again, Dimitri geared up to offer you his best!

Ranks in the top 1% for CED, Udder and Teat; top 2% for BW; top 5% for BMI; top 10% for BII.

Owned with Langford Herefords.

• Selling full possession and 3/4 semen interest. Buyer will receive all semen sales proceeds beginning November 10. Iron Lake Ranch and Langford Herefords will retain a shared 1/4 in-herd semen use, as they plan to continue using Peace of Mind through AI in their respected programs.

- Selling full possession and 3/4 semen revenue interest.
Sells with 100 straws of semen.

This well designed York son has created quite a stir and for good reason. He is dark red in color, red eyed, short marked and built exceptionally well. He is sound in structure with awesome testicle size that hang perfectly. He has a tight sheath and is well balanced from end to end. 717 is a potential calving-ease bull that is smooth made yet has shape and design. Just analyze his EPD profile and tell me he will not work in any program in America. Calving ease, Performance, Maternal Strength and Value-Added Carcass Merit!

There are frequent calls for a herd bull that looks and reads like this guy does. Don't miss out on this bull; when spring comes around, the prices go higher.

Posted individual performance ratios of 99 for BW and 106 for WW.

Ranks in the top 1% for Teat, Udder and CHB; top 3% for WW and Udder; top 4% for YW; top 5% for REA; top 10% for BMI and BII; top 15% for Marb; top 20% for CED.

A dark cherry red direct son of the immortal deceased Sooner, whose semen has fetched in excess of \$3,500 when you can find it.

I find this bull very intriguing. For as green as he is, he has rib shape, added bone, a square hip and an ultra cool front with a tight sheath. You will not find many Sooner progeny—male or female—that carry the dark red color that 795 possesses. His dam is the time-tested 8090 donor that sells as Lot 11. What an opportunity is presented right here to own a direct son of the great DM BR Sooner!

Ranks in the top 1% for Teat; top 3% for Udder; top 4% for CHB; top 20% for Marb; top 25% for BMI and BII.
