For General Questions Please Contact Our Office

*402-316-5460 or support@dvauction.com.

Welcome,

We would like to extend a special invitation to be with us on Saturday, April 8, 2017 for our 40th annual production sale at the ranch.

The cattle will be on display for viewing on sale day. You are invited to view the cattle before sale day at your convenience. We will have videos of the cattle available prior to the sale on our website, www.thorstensonherefordranch.com. The cattle will be sold by video auction with Doug Dietterle as auctioneer and the sale will be broadcast online by DVAuction.

Join us for lunch on April 8th and view one of the best crops of bulls and heifers we have ever offered. Only the top 20% of our Hereford and Angus beef genetics will be sold. We are offering both Polled and Horned genetics (horned cattle are dehorned).

We had a great year with good rain and good grass. The calves summered on grass and mamma's milk with no creep feed. The bulls were grown slowly after weaning and are sound in every way. Our offering represents a complete testing from birth to sale day...health, performance, soundness, disposition, and fertility exam with no other influence except that mamma cow and our ranch forage supplies.

A special feature will be an outstanding group of registered Hereford heifers. They represent our Hereford beef genetics and are a tremendous group of 15 females.

Feel free to come and look at the cattle anytime.

Again we are broadcasting live by DVAuction on the internet.

Please join us for lunch on sale day and we hope to see you Saturday, April 8th. Thank you for your friendship and your interest in our cattle.

William Thorstenson

Sired by 25L and out of one of our best cow families. Thor is a sire that is better than breed average in many measurable traits and is a trait leader in 10 different traits. This unique tabulation puts him in a category of only a few select sires in AHA. His sons and daughters indexed the highest in our herd of the sires we used. Co-owned with Frederickson Ranch and ABS.

20X is the "MVP" of the young herd bulls. He is low birth weight with curve bending numbers...superior growth, milk, carcass and eye appeal. His solid markings with full eye pigment and great disposition round out his MVP traits. His EPD numbers across the board put him in very select group of herd bulls.

113Z was our pick from NJW's sale in 2013. He is a homozygous polled herd sire that was the high seller. A complete package combining moderate birth, tremendous performance with strong maternal cows in his pedigree. First sire group was tremendous in weaning weights, natural thickness and overall performance. Beautiful daughters with great dispositions.

	-1.4	55	95	36	63	.017	.63	.37

Low birth weight herd sire that is really thick and an easy keeper. High selling bull in the Pyramid sale that is dehorned, but his mother is polled. His dam is one of the premier cows in the breed with some of the highest numbers across the board in the AHA. We have used him on heifers very successfully and they continue to grow. Low birth weight, high milk and tremendous carcass numbers are very evident in his offspring.
