GRACE CITY, NORTH DAKOTA

TOPP
ANGUS

Welcome TO TOPP ANGUS

At Topp Angus we have many goals within our ranch and breeding program but number one has always and will always be our relationship with our customers. We are constantly striving for feedback and communication with our customers and friends as a way to better our program and be able to build a stronger business relationship that will benefit both.

After customer relations, Topp Angus has three main areas of focus: genetic improvement, providing value to our customers and theirs, and sustainability.

GENETIC IMPROVEMENT

At Topp Angus, we strive to breed the most balanced, complete genetics in the industry. We will not focus on being the best at any one single trait, but instead all traits as a whole. If you are looking for the lowest birth genetics available in the marketplace, we are not it. While we appreciate low/moderate birthweights since we calve out on pasture, we will not sacrifice other traits and growth potential to chase low birthweights. We expect our females to be able to have a live calf unassisted, with the calf up and nursing shortly thereafter but will never get caught up in chasing the lowest birthweights. If you are looking for strictly carcass traits in your cattle, again we are not the place for you. We understand that the end product is the ultimate goal, and we must keep that in mind. We will forever be looking to improve our carcass traits and will not lose sight of that. However, there are so many traits that can not be sacrificed up to that point so they must all go hand in hand. If you are looking for strictly growth, again we are not your program. We maintain that if you want the most pounds per cow exposed in the spring, the genetics need to be balanced for live births, efficiency, health, and growth. We are very proud of the fact that our cattle can be at the top of multiple real world performance tests, but rather than focus on strictly being the highest growth cattle in the market we focus on balancing high performing progeny with a cowherd that is efficient in growth, efficiency, and live calves. Maternal traits are also a main focus here but when it comes to pure milk production, we will not focus on having the highest milk producing Angus around. We believe that a mother cow has to be able to produce adequate milk supply to produce a healthy, fat calf. She must also be able to maintain condition and breed back. We ask a lot of her, but it doesn't begin and end with milk production. We insist on maintaining a cowherd that has enough milk to produce that fat healthy calf, but also insist on strong udder attachments for longevity, proper teat size and spacing for problem free initial nursing and long term udder quality. The list goes on and on, but if you are looking for a single trait, there are other herds that are no doubt doing it better. We breed for balance to be near the top of all desirable traits and are constantly looking for ways to improve our product as a whole.

PROVIDING VALUE

At Topp Angus, it is important that you are receiving the greatest value for your genetic purchase. Our goal is to offer the most balanced genetics possible, with no holes predictability bred in to ensure marketability no matter your market. We have a product that we are confident in and stand behind 100% genetically. As our customer base grows, we will be looking to provide marketing options for you that will benefit you. We believe that as a customer, you will be producing a set of calves that are worth more, and we want to develop a program that makes sure you get paid for that. Great thought and careful planning will be put into this and as we plan, we would sincerely look for feedback from you as to what is most beneficial in your operation.

SUSTAINABILITY

Sustainability can be viewed many different ways. As with everything else, we try to be balanced in our goals. Outstanding pure profit is a nice concept and one that our banker would surely appreciate, but that is not what our business can be based on. Our sustainability depends upon our customers' profitability. We look to develop a program that keeps you profitable and coming back. We look to provide an atmosphere that is great for raising a family. We look to be great stewards of our land and environment. But most importantly, we value the friendships and relationships that can be developed in this business that, at the end of the day, makes all the time and effort much more than worth it.

SIGHT UNSEEN

Call Paul or any of the sales staff to discuss your needs. Bids are handled in confidence with satisfaction guaranteed.

RETAINED INTEREST

All bulls sell in their entirety unless otherwise noted.

TERMS & CONDITIONS

Cattle will sell under the suggested Terms and Conditions of the American Angus Association, found online at www.angus.org/Pub/suggested_sale_terms.pdf.

LIABILITY

Topp Angus assumes no liability for accidents or injuries that occur on the sale premises.

WINTERING & DELIVERY

Bulls will be wintered free of charge with delivery beginning April 1st. Pick your bull up sale day and receive a \$100.00/hd discount. Bulls will be delivered free of charge for the first 250 miles. A delivery charge of \$1.25/mile will be applied after that point.

SEMEN EVALUATION

A satisfactory semen evaluation is guaranteed at Topp Angus expense prior to May 1st. If your bull purchase fails to pass you are offered 4 options: a) a full cash refund of your purchase price b) a 110% credit towards next year's sale c) a replacement bull d) a 1 year replacement lease and a 110% credit towards next year's sale minus \$1,000 lease expense.

PURCHASE GUARANTEES

All bulls purchased and wintered at Topp Angus are self insured by Topp Angus until delivery. In the case of death or injury prior to delivery, the same options as the fertility testing is offered. After delivery, all bulls are guaranteed for all things genetic. Insurance for Mortality or Mortality + Accident, Sickness & Disease infertility will be offered through Dakota AG Insurance, Jared Mohnen 605-682-1368.

HERD HEALTH

The herd health protocol for Topp Angus has been designed to maximize biosecurity and immunity. Veterinary consult by Town & Country Veterinary Service (Trisa Tedrow DVM, 701-947-2000); testing performed at NDSU Veterinary Diagnostic Laboratory. View complete herd health statement at www.toppangus.com.

VIDEOS

Videos will be available online of all sale lots.

ONLINE BIDDING

Available through TheLivestockLink.com. Advance Registration required.

Contact Aaron Friedt at 701-590-9597 for more details.

Retaining fall possession.
Recommended for heifers.

The first of seven phenomenal flush brothers from a successful embryo mating sired by the \$145,000 Musgrave Big Sky.

The productive Pathfinder Dam of this bull has a progeny weaning ratio of 105 and a progeny yearling ratio of 104 on four natural calves and she is from the Genex Pathfinder Sire Connealy Right Answer 746 stemming from the famous Pathfinder Dam TC Marcia 1069 who was the featured Lot 1 cow of the 2010 TC Female Sale.

The grandam of this bull is a maternal sister to the \$50,000 Accelerated Genetics Pathfinder Sire TC Franklin 619 and to the \$21,000 Accelerated Genetics sire TC Touchdown 772 along with a long list of other top-selling individuals.

This elite prospect combines an impressive phenotype with an elite EPD combination.

The \$145,000 top-selling bull of the 2014 Musgrave Sale whose progeny include the top-selling bull of the 2015 Musgrave Sale.

This son of the Alta Genetics sire Connealy Earnan 076E is from the productive SAV Primrose 7861 who was the \$70,000 top-selling cow of the 2015 Musgrave Sale.

TOPP BIG SKY BULLS

The bulls who sell as Lots 1-7 are members of a successful embryo flush by the \$145,000 Musgrave Big Sky produced from a productive Pathfinder Dam who records progeny weaning and yearling ratios of 105 and 103, respectively on four natural calves.

The grandam, TC Marcia 7062, is a maternal sister to the Accelerated Genetics sires TC Franklin 619 and TC Touchdown 772.

Retaining in-herd semen interest.

These bulls are from the first calf crop by the Topp featured sire SVA The Donald 4030 and are backed by one of the oldest and most proven herd sire producing cow families developed at Schaff Angus Valley.

A full sister to the dam of these bulls served as a featured donor at Champion Hill and she produced a member of the Accelerated Genetics AI Stud.

An embryo flush sired by RB Tour of Duty 177, the one time EPD record breaker who sold more than \$1 million in semen sales in 2015 alone for the ORIGIN and ABS Global Sires and went on to lead the breed for annual registrations.

The massive donor dam of these bulls has served as a valued donor at Schaff Angus Valley and she records progeny IMF and ribeye ratios of 107 and 105, respectively on her first seven head evaluated by ultrasound.

The grandam is a proven Pathfinder Dam.
