

Wilken

+ Angus

November 27, 2020 | 1 PM MT
Wilken Ranch, Meadow, SD

Wilken

Angus

Our Vision:

We desire to equip our customers with the most profitable seed stock in the industry, through exclusive use of high accuracy AI genetics and rigorous culling of our cow herd. Our goals of consistent calving ease, maternal easy fleshing females, and moderate to high growth cattle with positive carcass qualities are in place to ultimately serve our customers with success through every cattle cycle.

Sale Day & Time:

Friday, November 27, 2020 -- 1 p.m. MDT

New! Sale Location & Directions:

Wilken Ranch, Meadow, SD

Directions from the south: 3 miles west of Faith turn north on highway 73. Go 21 miles north on highway 73. Turn west on Happy Hill Rd. Go 5 ½ miles west on Happy Hill Rd. to Wilken Rock. Turn south. Go ½ mile south.

Directions from north: Jct of Highways 73/20 with Indian Creek Church on the corner and Isabel to the east. Travel south 9 miles on highway 73 to Happy Hill Rd. Turn west on Happy Hill Rd. Go 5 ½ miles west on Happy Hill Rd. to Wilken Rock. Turn south. Go ½ mile south.

Sale Day Telephone:

Gary Wilken: 605-788-2855 (Home) | (605) 515-3786 (Cell)
Doug Dietterle: 605-580-1362

Auctioneer:

Doug Dietterle: 605-580-1362

Delivery & Wintering:

Wilken Angus will be delivering all bulls this year. We will deliver your bulls the week after the sale and you will receive a \$400 discount. The second option would be free wintering and delivery the first part of May. Delivery is free within a 200 mile area.

Semen Testing and Ultrasound Data

The bulls have been fertility-tested by Dr. Bleaux Johnson of West River Vet Clinic and ultra-sounded by Dan Hines.

Guarantee:

Wilken Angus guarantees all bulls against any injury that would keep them from being a breeder for the first breeding season. If a problem occurs, return the bull and a full credit will be given towards next year's bull sale, or a suitable replacement will be provided if available. The buyer will choose the preferred option. All claims must be made by 10/15/2021.

Volume Discounts:

Buy three bulls- 3% discount; four bulls- 4%; 5 bulls- 5%; on up to a maximum of 10 bulls-10% discount.

Sale Day Reps:

Donnie Leddy, Cattle Business Weekly, 605-695-0113
Dan Piroutek, Tri-State Livestock News, 605-544-3316
Scott Dirk, Tri-State Livestock News, 605-380-6024
Mason Dietterle, 605-580-5878
Beau Ravellete, RPI Promotions, 605-685-8155

Lunch:

Complimentary lunch beginning at 11:00 AM.

Zoetis 50K Genetic Testing:

We are pleased again this year to have the Zoetis 50K testing. 50K testing uses a sample of each of our bull's DNA to dependably determine their genetic potential. The bulls selling have been sire verified through the 50K genetic testing.

See page 4 for more information on 50K genetic testing information provided.

Individual Docility Score:

We have instituted a docility score that is specific to our bulls. This is NOT AN MVP. It is a subjective score derived from our personal evaluation of each bull. A bull would have to be rated 1-3 in order to qualify for our sale.

- | | |
|----------------------|---------------------|
| 1 - Extremely Gentle | 4 - Flighty |
| 2 - Docile | 5 - Agressive |
| 3 - Restless | 6 - Very Agressive. |

Hello from Wilken Angus!

We are glad that you have this catalog in your hands and we are excited for you to take a look at this set of bulls. We think this is the best set of bulls we have ever offered.

We are anxious to host our sale at the ranch this year. The bulls will be penned around the barn in sire groups for easy evaluation. The sale will be a video sale through **The Livestock Link** produced by Marc and Jill Hotchkiss. About two weeks prior to the sale, there will be videos of each bull available on our website, www.wilkenangus.com.

In an effort to make sale day as simple and relaxing as possible, we will deliver all bulls; so there is no need to bring your trailers.

We strive to provide you with the tools needed to confidently evaluate the bulls. These tools include performance data, 50K testing, ultrasound data, our own docility index, with the added confidence that all the bulls have been sire verified through SireTrace.

We continue to be encouraged by the positive feedback we have received from our customers. They really appreciate the way the bulls have worked and held up. We believe this is the benefit of a long-aged bull that has been developed slowly.

THANK YOU to our friends and customers! You make the cattle business and raising bulls a joy and worth the effort.

Gary and Lori Wilken

Some trust in chariots and some in horses, but we trust in the name of the Lord our God. - Psalm 20:7

Bid Online!

If you are unable to attend the sale, you can register to watch or bid online through The Livestock Link by following these instructions:

The Livestock Link™

Livestock Videoing • Video Sales
• Bid-by-Click Online Sales

To view events go to

www.TheLivestockLink.com

- Visit our website, www.thelivestocklink.com
- Click the "Auctions" tab
- Click on "Click Here to Register"
- Enter your e-mail address and password, and fill out all your contact information
- Fill out your Banking Information. If you are only viewing the sale and do not wish to bid, this information can be left blank.
- Check the checkbox at the bottom of the page that says "I'm not a robot" to prove you are a real person
- Click "Register" at the bottom of the page
- You will receive an email with a link to activate your account.
- **Please register to bid at least 24 hours in advance of the sale.**
- Contact Aaron Friedt at (701) 590-9597 for help or with any questions.

You will receive an email when you are approved for bidding. All applications will be reviewed and processed promptly. You will receive a bidder number only after you have made a purchase in the sale, and that number will only be used at that sale. When the sale is completed, please contact the sale owner or manager for instructions of payment and delivery of your purchase.

To use our service, you must have access to High Speed Internet.

Zoetis 50K Testing Reference Info

What are MVPs?

MVPs or Molecular Value Prediction are the predicted genomic breeding values for animals, based on the sum of the effects of the associated markers, expressed in units of measure for the trait. Similar to EPDs, MVPs rank animals for genetic merit and are expressed as deviations in performance from a set base-point for each trait. One-half of the difference in genomic breeding values between animals is transmitted to offspring.

What are Percentile Rankings (%)?

Percent ranks are based on the animal's MVP for each trait as compared to the overall population of Black and Red Angus animals in the Pfizer global database. Rank values indicate the 'top' position of the animal in the population, with lower values generally indicating higher and more favorable genetic merit for most traits. Traits of exception may include milking ability, yearling and mature height, mature cow weight and fat thickness, where lower percentage values generally indicate genetic merit for higher levels of milk and larger size, and higher associated feed requirements, and potentially less maternal adaptability

Calving Ease Direct

Describes differences in genetic merit for the likelihood of unassisted births in first-calf heifers, expressed as a trait of the progeny. Higher MVP values and lower ranks are preferred, especially when selecting sires for use on replacement heifers for easier calving progeny.

Birth Weight (BW)

Quantifies genetic differences in birth weight, with lower and moderate MVP values and ranks generally desired for ease of calving.

Weaning Weight (WW)

Measures difference in genetic merit for adjusted 205-day weaning weight, with higher MVP and lower rank values indicating heavier weights.

Yearling Weight (YW)

Indicates differences in breeding value for adjusted 365-day weight, with higher MVPs and lower ranks equating to genetics for heavier yearling weights.

Milking Ability (MILK)

Evaluates differences in genetic merit for the maternal component of calf weaning weight, predominantly due to milking ability of dams (or daughters). Genetic potential for milking ability should be matched to available feed resources, which implies that intermediate MVP and rank values are likely optimum for many production systems.

Scrotal Circumference (SC)

Describes genetic differences in age at puberty as indicated by adjusted yearling scrotal circumference. Larger MVPs and lower ranks for scrotal circumference equate to genetics for earlier and more desirable age at puberty in both bulls and heifers.

Marbling Score (MARB)

Quantifies genetic differences in USDA marbling scores at a constant age, with higher MVPs and lower ranks indicating higher levels of marbling and generally more desirable quality grades and associated carcass premiums.

Ribeye Area (REA)

Describes genetic variation in carcass muscularity as measured by ribeye area between the 12th and 13th rib, at a constant age. Larger MVPs and lower ranks for ribeye area favorably impact USDA yield grades and associated carcass premiums.

Molecular Value Prediction - Feedlot Index (\$MVPFL)

Predicts net return from combined genetic merit for feedlot (FL) gain, dry matter intake, carcass weight, as well as USDA quality and yield grades (marbling, ribeye area and fat thickness). The index assumes approximately 160 days on feed consuming concentrate rations and carcass value derived from a Certified Angus Beef (CAB) grid. Higher MVPs

Raindance is the perfect outcross option for many popular lines of cattle to add body length, eye appeal and the maternal power of the great Blackcap and sire Coleman Charlo 0256. These Raindance sons exhibit the extra muscle and length that Commercial cattlemen are looking for as well as improved foot quality.

Resource is a highly proven sire, which has consistently sired depth, muscle and fleshing ability in the right package. The two and three-year old Resource daughters that we calved out were gentle, easy-keeping with very nice udders.

These Resource sons will also improve foot quality. Use these Resource sons to produce sale topping steer calves and heifers that will control frame size and be the "keeping" kind.

MGR Treasure, a calving ease bull which offers substantial growth and outstanding marbling. His progeny are consistently square hipped and phenotypically attractive. Use Treasure as a valuable tool to moderate milk without sacrificing growth. The Treasure daughters looked very feminine when we ultra-sounded them this fall.

We used Hoover Dam several years ago and still have a lot of Hoover Dam daughters in our herd. They are some of our very favorites, so we chose to use him again. Hoover Dam has truly established a brand name reputation for calving ease, muscle, docility, and maternal strength.
