Welcome,

Our families would like to welcome you to our 44th Annual Production Sale. It has been interesting, challenging and rewarding to be able to have sales this many years. 2020 proved to be a year of uncertainty with world-wide pandemic. I often wonder how the pandemic of the early 1900's with the Spanish flu compares to the pandemic of today. Their challenges I am sure were very similar even though we live very differently today.

The bulls and females we are offering provide some new genetics with continued emphasis on calving ease, performance, phenotype, and maternal. We demand our cowherd to produce with minimal care. The calves are not creep fed. After weaning, we grow the bulls with a ration that will enhance soundness and longevity. The offering represents a complete test from birth to sale day...health, performance, soundness, disposition and fertility.

Join us for lunch on April 10th and look over one of the better offerings of Hereford and Angus bulls plus Hereford replacement heifers and Angus replacement heifers. We will have both polled and horned Hereford genetics. The horned bulls will be dehorned. The Angus bulls are the top end and are the product of our dedication to calving ease, performance, maternal and complete soundness.

Thank you for your friendship and interest in our cattle. Feel free to come and look over the offering anytime. See you on Saturday, April 10, 2021.

The Bill Thorstenson Families

Sired by 25L and out of one of our best cow families. Thor is a sire that is better than breed average in many measureable traits and is a trait leader in six different traits. This unique tabulation puts him in a category of only a few select sires in AHA. His sons and daughters indexed the highest in our herd of the sires we used. Co-owned with Frederickson Ranch and ABS.

Bravo 319 is another BAR JZ herd bull that is sired by the Bruiser Herd bull. The 319's are small at birth, have good growth with thickness and performance. His first calf crop averaged 100 for birth and 107 for weaning weight ratio. A heterozygous polled bull and Don remarked if he was homozygous, they would have kept him. His dam is one of Don's favorites.

Domino 6107 is a herd bull we purchased from Pyramid Beef. He is really attractive, long, muscular herd bull sired by one of the leading sires for many years in the Hereford breed. His dam is one of their leading cows on the ranch and is now in their flush program. A very strong maternal sire and just really good all-around useful sire.

Apex 262 is son of KCF Summit that was purchased from BAR JZ to use on first calf heifers. He is goggle eyed and solid marked with real good calving ease. We had real good luck calving heifers with him. They were born small, marked like him and had good vigor. There are some calving ease bulls in the offering to use on heifers.

Herd bull from Millar Angus of Sturgis, SD that was one of the high sellers. Powerful bull in many ways...long bodied and deep sided with that square look. He stamps his calves just like himself. Daughters are just calving and are going to make productive cows with good udders and plenty of milk.

We use both of these Hickok bulls on heifers and were well satisfied with their calving ease. The Mill Bar Hickok 7242 herd bull has one of the highest docility scores in the Angus breed. The two sons we used are extremely docile and are thick with tremendous length and good footed. First sons offered by Hickok.

SAV Priority son from Severance Angus of Ryder, ND. This guy is really put up...long, muscle, deep sided with moderate frame and very docile. This herd bull is one of our favorites. We can rub him or spray him right in the breeding pasture. Several bulls by him and they are an excellent sire group.
